## ArenaKleen™— No More Dust

Health issues from dust that create respiratory diseases for horses, their riders, and their trainers are a major problem and are on the increase. More and more people ride in rings and indoor halls, which compounds the problem.

ArenaKleen is the new dust control solution that eliminates health risks for horses and all who work with and around horses. ArenaKleen allows the horse, the rider, and the trainer to work safely and comfortably in any type of arena all the while helping to preserve the footing as well as maintaining footing consistency for the long term.

ArenaKleen is specially made to work in areas where the surface will be continually disturbed thereby rendering most conventional dust control systems less effective or even totally ineffective. ArenaKleen never evaporates and does not wash away in rain. ArenaKleen lasts all season long and never needs watering!

Safe environment for rider and horse

## Increase Performance when Using ArenaKleen™ for:

- Indoor and outdoor riding arenas
- Rodeo arenas
- Tracks and riding trails
- Round pens
- Walkers
- Stable aisle ways
- All types of equestrian arenas
- Horse trailer parking areas

## ArenaKleen™ is Safe for Humans and Animals

ArenaKleen is a blend of high-tech, clear, safe, odorless, organic fluids, that is highly refined, proven to be non-toxic to humans, animals, marine life and plants.

Top performance with properly treated footing

## Why ArenaKleen™ is the Solution for You:

- It provides you a safe environment for rider and horse
- It protects your investment into your equestrian facility (footing, etc.)
- It gives you peace of mind for up to 15 months
